Notes

- Equality should be prioritized

- Real statistics should win

→ You didn't really bring up any actual statistics

- H-BI workers help America as a whole

- Immigration is a human right
- Promotes equality

- Foreign spending has gone up

- Investment has gone down

- Help with our cyber security

- All our technology comes from foreign countries

- Meant most

- Workers will face sexual harassment regardless if they are H-BI workers or not

- You must provide sources

- Speak slower

- Being too repetitive

- re-stating what you already said when ~~defending~~ defending your case instead of bringing some facts that would back up your statement

- Make more eye contact

- Keep working harder

Neg.

Notes

- No shortage of workers

- The eff. is lying about there being a shortage

- Why are workers taking breaks if we don't "have enough" workers

- There's a demand for cheap labor

- Jobs are given to H-BI workers when it could go to an American just as skilled

- We must put our citizens first

- H-BI workers do not have as many rights to begin with

- They get harassed and cannot speak up

- H-BI workers can hack America

- You need more factual evidence (sources)

- Good questions were asked

- Good pace of when speaking

- Make more eye contact

- Keep working harder

Impacts:

NEG

AFF

(Flow is separate)

- outsourcing

- tax cuts → 100 billion a year

- discrimination

- Better products

↳ Discrimination outweighs all economic benefits because it's a racial issue that has hurt our country for decades. The economy will fix itself, but racism & sexism won't.

→ All impacts on NEGs got turned by the
LOUTHB = 183 American jobs cut. ~~NEGs~~ NEGs
conceder attorney is sure bc of a new bill,
so that drops your first cont. Wager is
turned w/ product prices overall, and even if American
wages decrease, jobs are created for them.
Discrimination is turned bc if more jobs are made by LHB,
minorities, older, and women can fill those new jobs.

Anusha: A confident speaker in constructive practice rounds to some more. Good attacks in cross or immigrant rights. Solid extensions.

Aidan: Good and confident speaker, could get a little overly tangential, very very good extensions. I would cover their case more to make them feel uncomfortable, and throw the ball out of your case. Finally. Do not drop ANY tuns, especially first ones.

Colin: Sometimes you get a bit casual with your use of the word "like", but all in all, understandable clear. For content, make sure to touch every detail. For example, specialized is STEM or immigrant rights.

Lori: Good confident and good speaking from beginning, then lost a little in summary, so maintain that same tone for content, you should be extending claims 3 times for framework, and make sure to not let any of their responses through.

RFD:

neg won framework, but aff links in, so in US both aff does do a little for discrimination, but US has their environmental collapse that the neg.
