- Solid Speeches!
- Remember to push back on Negs counter plan as much as you can on 2nd speech so you can build up on last speech. Leaving ~~your~~ the counter plan alone left a massive hole on your offense
- Point out that even if UHAP doesn't lose too much money, it still effect wrong group and is therefore a failed program

Neg

- Solid speeches!
- slow down just a bit so your judge can hear all your arguments
- great structure

RFD: Ass did not touch on Negs counterplan/ didn't explain why it wouldn't be as effective

Andy - You can perm. You should argue that her plan is not unique and that you can adopt those changes. Or, you have to prove that she can't do what she did. You need to prove that you can't pick or chose because they all lead to a negative environmental impact in your arguments.

Rachel - just speak up and find more evidence that your plan is both unique and special to defend against a permutation. Good point about the poor people.
