Fielding 312

It is going to feel like you are walking WAY far down the hallway. On the walk down the LONG hallway, you will have to turn right, then immediately turn back left. When you get ALL the way to the end of the hallway, the room will be hidden in the corner to your right.

This is the only room we are using in this section of the building, because all of the other classrooms are used for our technical programs and contain sensitive equipment.
