Awards this year will take place concluding the final round of competition in each event. This is to encourage students to attend a final round and support their fellow competitors. If an event does not have a final round it will be announced with another event that did have a final round. (For example: HI has a final round, but DI does not. DI winners will be announced at the end of the HI round)

The best way to help the tournament is to keep it running on time. Every minute counts.
